Message from Berkeley Lab Director Paul Alivisatos on Road Safety

“At Berkeley Lab, Road Safety is just as important as safety in our labs, shops, and offices... Traffic and pedestrian safety are priorities for us ...Plus we continue to promote safe driving through a contract with UC Police which helps to enforce California laws on our site... Lab Management is committed to safety, and we ask each of you to take responsibility for your own safety as well as the safety of others on the road. With our increased construction activity, let’s all be more patient and alert. We want to foster a culture of safety that our employees can take home and in turn inspire others...” For the entire clip, go to this link: http://www.youtube.com/watch?v=AthuV0GAFss&feature=player_embedded#!

LBNL Road Safety Day

Come Join Us!

Booths:

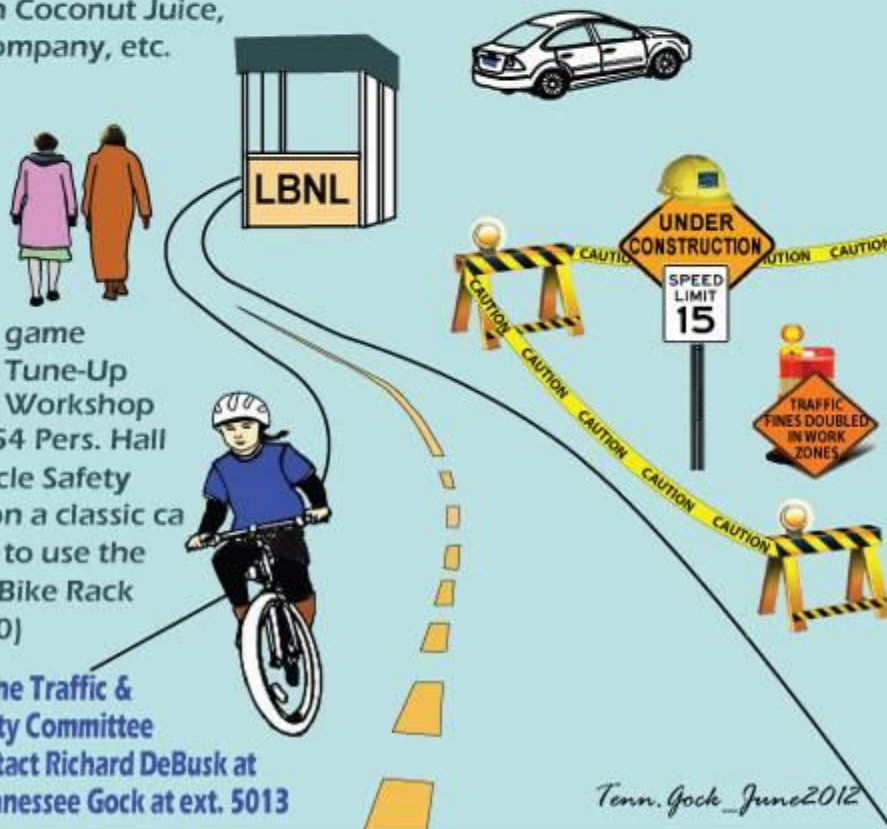

- *Road Safety *Pedestrian Safety
- *LBNL Bicycle Coalition
- *Construction *Safety Concerns
- *Lab Security *UC Police
- *LBNL Fleet Program *GEM
- *Lab Shuttle Bus *Seat Belt Campaign
- *Vendors: Missing Link, Mike's Bikes, Amy & Brian Coconut Juice, Clif Bar & Company, etc.

Wed., June 27, 2012
11 am to 2 pm
Cafeteria Parking Lot K1
and Lawn Area

Activities:

- *Spin-A-Prize game
- *Free Bicycle Tune-Up
- *Free Bicycle Workshop
1-2 pm at B54 Pers. Hall
- *Demo: Vehicle Safety
Inspection on a classic car
- *Video: How to use the
Shuttle Bus Bike Rack
- *BBQ (~\$7.50)

**Sponsored by the Traffic &
Pedestrian Safety Committee**

- Violation of disabled parking provisions, first offense....\$1,080
- Parking in a bus loading area....\$1,080
- Not wearing seat belt - adult....\$160
- Not wearing seat belt - child under 16....\$480
- Safety Belt violation...2 points
- Traffic Fines Doubled in Work Zones
- Moving violation NOT involving an accident...2 points
- Moving violation involving an ACCIDENT...3 points
- Jaywalking or crossing on red traffic light...up to \$194

Driver, 19, was texting before horrific Missouri traffic pileup

A 19-year-old driver was texting just before his pickup truck, two school buses and a tractor truck collided in a deadly pileup on an interstate highway in Missouri near Gray Summit on August 5, 2010, according to the National Transportation Safety Board.

Federal investigations revealed that the 19-year-old pickup truck driver sent six texts and received five texts, with the last text just before his pickup crashed into the back of a slowing tractor truck, beginning a chain collision. The pickup was rear-ended by a school bus, which in turn was rammed by a second school bus. The pickup driver and a 15-year-old student on one of the school buses were killed. Thirty-eight (38) other people were injured.

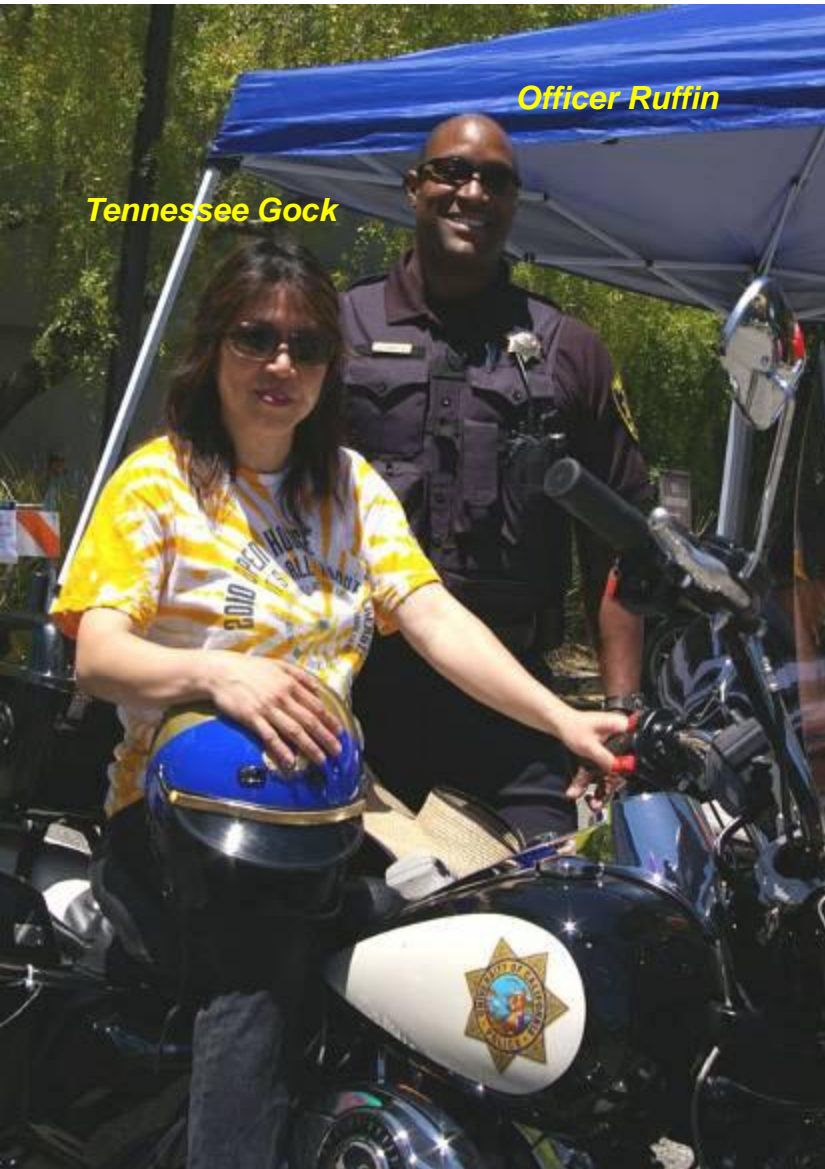

Wet weather believed to be a contributing factor in a fatal crash on Fish Ranch Road involving a Berkeley Lab employee

On Friday, November 19, 2010, a fatal crash on Fish Ranch Road just north of Highway 24 tied up westbound traffic on the highway as emergency crews raced to reach the scene.

Craig Hopkins, 50, of Bay Point, was driving home from the Lawrence Berkeley National Laboratory at 3:50 pm on Friday when his Toyota pickup spun out and hit a pole on wet Fish Ranch Road. Moraga-Orinda Fire District crews were first on the scene and rendered aid but were unable to resuscitate the driver. MOFD firefighters said wet weather was a contributing factor and made the rescue difficult.
